TRAINING SCHOOL

Appendix

We have a responsibility to ensure that our students will be safe, competent and ethical to undertake our training. This means that we need to protect not only yourself, but your fellow students and potential future clients by being as sure as possible that we only accept students on our training who are appropriate at the time of application.

If you are actively addicted to drugs or alcohol, or if you have been convicted of any offences, you should inform us.

If you have a past history of addiction to drugs or alcohol; any criminal history; have been subject to any procedures related to this field; are recently bereaved; have been diagnosed mentally ill or are receiving medication for an emotional or psychological condition; have a serious physical illness or condition, are pregnant or epileptic - we may be able to accept your application but you must tell us in the declaration on the Application Form and enclose a covering letter which fully discloses your situation. For example, pregnancy and epilepsy may be contra-indicated for Breathwork psychotherapy and so medical permission will be required; whereas certain classes of illness may have safety to practice issues which need to be assessed.

We will make your enrolment decision on a case by case basis and will fully comply with all equality, diversity and disability regulations, where necessary taking independent advice.

If during the training we are in the opinion that you should actively engage in one to one therapy we shall inform you.

The school has the right to terminate your contract at any time we find you unsuitable for this training or we find that your presence in the course is unsafe for yourself and others.

We need this information not to exclude you from the course but to help you in the best way in your personal difficulties.

I have read this document and I declare that it is acceptable and understandable by me.
