TRAINING SCHOOL

Dear friends, dear students, dear interested!

Our training is progressing and we had already many interesting and instructive lectures and also some live-seminars with our international group. I like this group very much, interesting and very different people who all have the same goal: To learn more about themselves, to delve deeper into the layers of consciousness, to learn methods and to apply their knowledge later. Recently another student joined us, who has been already in the last seminar in the black forest. Because we recorded all lectures it is still possible to join and catch up lectures and to participate in later live seminars.

Seminar 28.11. to 01.12.24 in Todtmoos/ Germany

Our next live seminar will be with Stephan Schillinger from France. Language is English. Later in the training we will have some lectures with him.

He wrote 10 books, e.g. about "forbidden wisdom" of psychedelics in history.

His books are in the moment only available in French, but translations are in progress. He also is a speaker in international conferences and a very empathic person.

In this seminar we will have Holotropic Breathwork and a deep self exploration.

Stephan will talk about integration skills.
